WORK EXPERIENCE

Vice President of Technology Catalyst MedTech

05/2023 - Present

Pittsburgh, PA

National provider of diagnostic imaging, medical equipment services, and healthcare technology solutions

- Promoted to VP of Technology following acquisition of Digirad Corporation in 2023
- Led post-merger integration following acquisition of Digirad, aligning infrastructure, teams, and technology policies
- Reduced IT budget by 30% through vendor consolidation and system integration—without reducing headcount
- Led development and deployment of custom operations management system (OMS) integrated with ERP platforms, improving data flow and operational visibility
- Designed and rolled out company-wide communication strategy post-acquisition, ensuring alignment across teams and leadership
- Directed restructuring and cross-training across internal technology teams to enhance collaboration

Vice President of IT Digirad Corporation

04/2020 - 05/2023

Atlanta, GA

National Diagnostic imaging and healthcare services provider

- Spearheaded cloud migration to Azure and AWS, increasing agility and scalability
- Cut IT department costs by 50% and consolidated external vendors by 80%
- Replaced all consultants with in-house staff and rebuilt internal IT team from the ground up
- Established cybersecurity program that achieved HITRUST certification
- Designed secure data transfer system for national mobile imaging fleet

Enterprise Solutions Manager

Infracore

10/2017 - 04/2020

IT consulting and managed services firm supporting mid-sized businesses across healthcare, finance, and SaaS industries

San Diego, CA

- Served as vCIO for multiple clients in healthcare and professional services
- Guided companies through strategic initiatives including M&A, infrastructure upgrades, and security audits
- Designed IT roadmaps aligned with business goals and regulatory requirements

Director of IT

Recondo Technology (now Waystar)

10/2012 - 09/2017

SaaS company delivering revenue cycle and payment solutions to hospitals and healthcare providers; acquired by Waystar

Denver, CO

- Managed all IT operations for a growing SaaS healthcare technology firm
- Led infrastructure transition to cloud and implemented scalable systems architecture
- Improved data security posture and operational performance for client-facing applications

Systems Administrator

Common Good IT

09/2011 - 10/2012

IT services company focused on nonprofits and small healthcare organizations, providing infrastructure and compliance support

Boulder, CO

- Led internal IT functions for a genomics startup, including server management and application support

Systems and Network Administrator

University of Colorado Boulder

10/2008 - 11/2010

Public research university with a large-scale, distributed IT infrastructure

Boulder, CO

- Provided campus-wide network administration and server support for the engineering department

EDUCATION

Executive MBA

University of Southern California

Los Angeles

BSBA Management and Finance

University of Colorado Denver

Denver, CO

PERSONAL INTERESTS

Surfing, golf, and global travel. I've explored cultures around the world and bring that curiosity and perspective into leadership. As a new dad, I'm excited to share that adventure with my family while staying grounded in nature and movement.
